

Testing Documentation

Web-based Centralized Faculty Evaluation System

1. Master Test Plan

1.1 Purpose

The purpose of this Master Test Plan is to define the testing approach for the Web-based Centralized Faculty Evaluation System. It provides a structured procedure for verifying the functionality, reliability, and proper operation of the system before acceptance and actual use.

1.2 Testing Objectives

The testing aims to:

1. Verify that the system functions according to the identified requirements.
2. Identify and document system defects.
3. Verify that data is correctly processed and stored.
4. Ensure that different system modules work together properly.
5. Determine whether the system is ready for SAT and UAT.

1.3 Scope of Testing

Included

- User authentication
- User management
- Faculty management
- Faculty evaluation
- Evaluation submission
- Evaluation records
- Report generation
- Database operations
- User access/permissions

3. Testing Environment
